Ubiquiti UFSP Training Course

UniFi Full Stack Professional (UFSP) is a **half-day introduction course** intended to precede and complement other specialised training courses on the UniFi platform (ex. UWA).

Using **Cloud Gateway devices**, students train on the UniFi "full stack" of software applications available to technical professionals seeking futureproof enterprise solutions in the dynamically changing IT world.

This course is ideal for **technical professionals** looking to master UniFi's comprehensive **tools for network management**, **security**, **access control**, and **communication** in a rapidly evolving IT landscape.

Course Overview:

UniFi Overview
Site Manager
Site Admins
Cloud Gateways
Site Magic SD-WAN
UniFi Protect
UniFi Access
UniFi Talk
UniFi Identity

Ubiquiti UWA Training Course

The **UniFi Wireless Admin** (UWA) course is a comprehensive in-class training program that spans **one-and-a-half days**, dedicated to mastering **Enterprise Wireless Networking**.

It places a significant emphasis on the best practices for **designing and managing UniFi WLANs**. Participants will engage in hands-on lab activities, utilising **Cloud Gateway devices** and the latest generation of **UniFi Access Points** (APs), to gain practical experience.

The course curriculum includes an Introduction to UniFi WLANs, RF Fundamentals, 802.11 Networking, as well as thorough training in WLAN Planning & Design, Deployment, and Troubleshooting.

This course is ideal for individuals seeking to deepen their understanding and skills in **setting up and maintaining high-performance wireless networks** using UniFi's state-of-the-art technology.

Course Overview:

Intro to UniFi WLANs
RF Fundamentals
802.11 Networking
WLAN Planning & Design
WLAN Deployment
WLAN Troubleshooting

Lin ITX
WIRELESS & NETWORKING EXPERTS
